The following table shows the results of the regression analysis for the dependent variable "Change in the number of employees" (in thousands) for the period 1990-1995. The independent variables are "Change in the number of employees" (in thousands) and "Change in the number of employees" (in thousands). The results are as follows:

Variable	Coefficient	t-statistic	p-value
Change in the number of employees (in thousands)	0.0000	0.0000	0.0000
Change in the number of employees (in thousands)	0.0000	0.0000	0.0000

The results show that the change in the number of employees is not significantly different from zero for both variables. The p-values are all greater than 0.05, indicating that the null hypothesis of no effect cannot be rejected.
